Father Donnelly Tells Knights Fleeting Thoughts of Hearers Must Be Concentrated.

Rev. Francis Donnelly, the new paster of the class of 1915 of the Medical Schoo of St. Aloysius Church, was tendered a reception by Potomac Council, nights of been appointed interns at Children's Hos Columbus, at the Knights of Columbus Hall, Sixth and E streets northwest, last night. The musical program consisted of classic selections by Dr. James Dickenson and vocal selections by the St. Aloysius chorus.

Edward L. Tucker introduced Father Donnelly, who expressed his pleasure at being present and his appreciation of the reception. He spoke on "The Art of reception. He spoke on "The Art of Winning and Holding Interest in Public

Speaking."

"How to keep attention in public speaking may be summed up in one brief sen-tence," said Father Donnelly. "Be interesting. To interest is not quite the same as to amuse. Interest calls for concentration on a subject; amusement encourages distraction. The public speaker has before him a large and varied audience whose fleeling thoughts he must arrest and concentrate upon his

are showing production records which may remain unbroken for years.
Favorable weather in October resulted in the department's estimate of the corn crop for 1915 being raised to 2,090,509,600 bushels, which is an increase of 65,000,000 bushels over the estimate made on October 1. This corn crop is compared with 2,672,804,000 bushels in 1914, and an average of 2,708,344,000 bushels for the five years from 1909 to 1913. 1909 to 1913.

The farm price for corn on November 1 was 61.9 cents a bushel, as compared with 70.5 cents a bushel a year ago. The corn crop on the basis of present price is, therefore, worth

\$1.913,000,000.

The wheat crop will equal almost one-fourth of the world's entire output. It will establish a record never before reached by that crop in any nation. The American harvest this year exceeds the previous record production of wheat in this country by more than 110,000,000 bushels.
